Such items shall not form part of the Equipment for the purposes of the Project Services Agreement and do not constitute a sale by sample.
 - 3.5 Unless otherwise expressly agreed by Nviron in writing, the Assumptions shall apply to:
 - 3.5.1 the scope of the Services;
 - 3.5.2 the supply of the Equipment and the Services by Nviron (including any timescales for the completion of the Services); and

 - 3.6 If, at any time, any of the Assumptions transpire to be incorrect:
 - 3.6.1 Nviron shall have no liability for any associated delays in completing the Services and the time for completion of the Services (and accordingly the Contract Duration) shall be deemed to be extended on a pro-rata basis to the extent necessary to accommodate the period of any such delays;
 - 3.6.2 Nviron shall not be obliged to provide any services (including in respect of the Services) if and to the extent relating to matters falling outside of the Assumptions; and

 - 4.4.1 Nviron's responsibility for providing services is limited to the Services as set out in the Project Services Agreement and Nviron shall not be required to undertake any other services; and
 - 4.4.2 accordingly, Nviron shall have no responsibility to provide any assistance, support or maintenance relating to the Equipment or its operation after completion of the Services or earlier termination of the Project Services Agreement (except if and to the extent required due to any negligence or breach of the Project Services Agreement by Nviron, subject always to the provisions of clause 13 and the other provisions of the Project Services Agreement).
 - 4.5 For the avoidance of doubt (but without prejudice to any other provision of the Project Services Agreement), matters which are specifically excluded from the scope of the Services are set out in Schedule 5 of your Project Services Agreement.

 - 5.2.4 provide Nviron with all assistance reasonably required by Nviron to enable it to supply the Services and deliver the Equipment;

Should the Customer require any greater degree of comfort with regard to any estimates, then it may request Nviron to provide services for the purposes of giving an indication of the scope of a project or potential future services (and any such services shall be subject to a separate written agreement which is signed by both parties). In no circumstances will any estimates given by Nviron be binding on Nviron (including, for the avoidance of doubt, where the Services include assessing the scope of a project or potential future services and estimates are subsequently given). Accordingly, notwithstanding any estimates given by Nviron, the Customer shall remain liable to pay of the Services for the actual time incurred, at the rates referred to in Schedule 7 of your Project Services Agreement.

- 7.7 The Charges (and any other amounts stated to be payable by the Customer pursuant to the Project Services Agreement) are stated exclusive of any applicable value added tax and any other applicable taxes and duties or similar charges, which shall be payable by the Customer in addition when it is due to pay for the Charges, at the prevailing rate from time to time in force.

Provided that Nviron approves the request (which approval shall not be unreasonably withheld or delayed), the changes or additional services (as the case may be) shall be implemented in such manner and in accordance with such timescales and at such cost as shall be agreed between the parties in writing. If and to the extent that such changes or additional services are so agreed, the provisions of the Project Services Agreement (including clause 12) shall apply thereto and references to the Services shall be construed accordingly.
- 10. Customer Warranties**
